# The Zelenko protocol

---

## If you're in a hurry

1. Read the [Guide to Home-Based COVID Treatment](#) prepared by the [Association of American Physicians and Surgeons](#), and watch Dr. McCullough's [brief video presentation](#).
2. Read the [treatment protocol](#) and [prophylaxis protocol](#) documents by Dr. Zelenko.
3. Read [Dr. Zelenko's statement to the U.S. Senate Committee on Homeland Security](#)

For a more technical briefing:

1. Watch the interviews of [Dr. Zelenko](#), [Dr. Risch](#), and [Dr. Marik](#).
2. Read the papers by [Dr. Zelenko](#), [Dr. Risch](#), [Dr. McCullough](#), and [Dr. Marik](#).

For early outpatient care: Read [this article by Dr. Vliet](#), and try the [telemd program](#) organized by [Dr. Jerome Corsi](#) or the [telemd program](#) by [Dr. Stella Immanuel](#), or the [telemd program](#) by [Dr. Ben Marble](#). You can also make a [telemd appointment](#) with [Dr. Zelenko](#) himself. A doctor directory and other information has been put together by [exstnc.com](#) and [AAPS](#). Immune support nutraceutical supplements are available from [Dr. Zelenko](#) and [Dr. Immanuel](#).

In the local RGV region, doctors that support early treatment protocols include, but are not limited to, [Dr. Hiram Garcia](#), [Dr. Allison Garza](#), and [Dr. April Lopez](#).

On general public health policy concerns, absolute must watch is [Dr. McCulough's interview](#) on early outpatient treatment and this [news report](#). Kathy Dopp has also made an [excellent website](#) with covid-related resources.

To understand the disinformation campaign against early treatment, [read this article](#).

## Introduction

The following content is related to [the early outpatient treatment protocol](#) proposed by [Dr. Vladimir Zelenko](#) for the SARS-CoV-2 virus. Dr. Zelenko originally treated high-risk patients with hydroxychloroquine, zinc, and azithromycin. He has since evolved his protocols to include a quercetin protocol for low-risk patients as well as guidelines for prophylaxis.

Dr. Zelenko shared the details of his protocol on [March](#) and [April](#) 2020 in open letters to the medical community and also shared updated [treatment](#) and [prophylaxis](#) protocols on August 2020. **He has also published [his first research paper](#) on his treatment protocol. [See the press release](#). *Dr. Zelenko's paper establishes, with statistical significance, that his early outpatient protocol reduces hospitalizations by 84%.***

Dr. Zelenko's [statement](#) to the U.S. Senate Committee on Homeland Security indicates no deaths from amongst the group of patients that initiated treatment during the first 4 days, and took medications for at least 5 days. Dr. Zelenko is now investigating the use of [nebulized hydroxychloroquine](#), which could very well prove to be the final nail in the coffin for the SARS-CoV-2 pandemic. If you are interested in the inside story of how Dr. Zelenko discovered the Zelenko protocol, it is best told in his [interview with Dr. Breggin \[backup\]](#). Dr. Zelenko has been banned from twitter, but you can [keep up with him on Telegram](#).

The [Eastern Virginia Medical School](#) maintains an interesting website with current information for medical practitioners. They recommend the [I-MASK+ and MATH+ treatment protocols](#) for hospitalized patients. They are currently strongly advocating in favor of ivermectin instead of hydroxychloroquine, and they also recommend using quercetin combined with vitamin C as a zinc ionophore.

## Quercetin protocol

Quercetin is an over-the-counter alternative zinc ionophore to the prescription drug hydroxychloroquine, that has been recommended by Dr. Seheult, from [medcram.com](http://medcram.com), as part of a prophylactic regimen. For more information see the video below.

- 04/21/2020: Coronavirus Pandemic Update 59: Dr. Seheult's Daily Regimen (Vitamin D, C, Zinc, Quercetin, NAC)  
[\[youtube\]](#)

A similar Quercetin protocol has also been recommended by the [Eastern Virginia Medical School](#). Also see the [research paper by Dr. Marik](#) posted above for more details about quercetin, the importance of combining it with Vitamin C, and [its safety profile](#). Dr. Zelenko [has also recommended](#) a quercetin protocol for low-risk patients and for high-risk patients while hydroxychloroquine is unavailable. Although quercetin is available over-the-counter, you should consult with a doctor about [drug interactions](#) with your prescription medications.
